Score: 82.0

Rubric Items

Question: What are your git config's?

Warning: answer does not include any customization.

Question: What files or directories are in the .git directory?

-1pts Did not list contents of .git directory

Question: Using markdown, how would one express a link to the course web page (https: //course.ccs.neu.edu/cs5500)? Put the markdown command into your answer as text.

Good answer given

Question: What rules are in your .gitignore?

-2pts Insufficient rule set. Your .gitignore does not block enough types of files (e.g. *.class)

Question: What is the content of your pom.xml (initially)?

Please contact your grader for any grading questions

Good answer given

Question: What is the content of your pom.xml (after changing to junit4)?

Good answer given

Question: What are all the commits you've made on the feature-1 branch?

Good answer given

Question: What are all the commits you've made on the feature-2 branch?

Good answer given

Question: What are the differences between master and the other three branches?

Good answer given

Question: What are the differences now between master and the other three branches (after revert-feature-3)?

Good answer given

Question: Does maven run/work (no dependency or resource issues)?

-5pts Mvn fails from TA command line.

Question: Does the code run?

-10pts Code does not run.

Question: Is the code sufficiently well structured?

Warning: could be improved. Please refactor (more) your code going forward. (no deduction this time)

Question: Are there any code smells?

Warning: some smells found. Please insure none exist in future work

Question: Is there appropriate use of Javadoc?

Warning: javadoc missing or needs improvement. Please insure good documentation is added in future work (no deduction this time)

Question: Is the code clean?

None
